Letter of intent

With this letter I wish to express my willingness to continue the research collaboration with Ramon Llull University, initiated in 2015 with Dr. Ursula Oberst from Blanquerna Faculty of Psychology, Educational Sciences and Sports, in the framework of the International Ph.D. programme in Applied Psychology.

I understand that the implementation plans for specific projects will be mutually developed and that all arrangements, including the exchange of doctoral students and possible financial issues, will be negotiated separately. A letter of agreement for each specific project, the period for the project to be completed, as well as any key performance indicators, will be developed and signed by both parties on successful completion of the negotiations.
